- Next JS
- React Redux
- HTML5
- CSS3
- Tailwind
- Styled Components
- Material UI
- Ant Design

Back-end:

- Express JS
- Nest JS
- Node JS
- MongoDB
- Mongoose
- Prisma

Development and Management Tools:

- Swagger
- I18nexus
- Git | GitHub

Experience

Contractor Full stack developer

February 2024

BACKEND

- Create CRUD Apis using Node JS, Next connect and Prisma
- Update existing Api's
- Handle documentation using swagger

FRONTEND

- Built new and scalable views using Next.js, Styled components and materia UI allowing users to update, read, and delete information.
- Updated state management for existing views from useContext to Redux.
- Improved architecture by migrating from Atomic Design to Screaming Architecture.
- Migrated views from Pages Router to App Router in Next.js

Nómada Software House

January 31 2022 - May 27 2022

Frontend Developer internship

- Built components using React.js and Material-UI.
- Consumed APIs using Axios.
- Managed state using React Redux.
- Handled asynchronous requests using Redux asyncThunks

Developer personal projects

- E-commerce
- Point of sale
